

Mobilise store staff and improve your retail business

# Mobilise your store staff

Using DynamicStore, retailers can greatly enhance information efficiency when managing goods in-store. It is a mobile extension of the administrative system on the shop floor which gives personnel access to all the information they need to handle goods.

DynamicStore is a mobile solution that enables everyone to work more efficiently by accessing key information from other core IT systems while working in-store.

Store employees get a powerful, cost-saving mobile unit with direct access to administrative systems. This makes ordering and procuring

products easy and efficient, regardless of where or when personnel are in the store. It's easy for staff to place new orders, pick stock and print labels using the mobile unit.

It also makes it possible to automatically manage new deliveries and check inventory status at the warehouse without having to sit down in front of a computer.

## CHAIN ACCOUNTING

Fast electronic access to accounts and other relevant information from chain stores improves budgeting, oversight and control of chain economy.

## CHAIN MANAGEMENT

Real-time access to up-to-date information about key aspects of business at store and chain levels makes chain management and development more efficient.

“Since we are the largest store in this region we place huge orders. To save time and money, it is vital that the orders we place are correct. For us, a professional order system is a must and the mobile solution system from Consafe Logistics was definitely the right choice.”

FRANK ARE ANDRESEN, COOP OBS

#### Benefits:

- Easy access to information for performing key in-store tasks
- Fast and easy registration
- High precision and reduction of errors
- Less time between actions and information update in the host system
- Paperless working
- Improves decision making
- Label ordering and sales tools
- Additional modules for price control, internal consumption and complaints

STORE

#### STORE MANAGER

All relevant information regarding stock status, pricing and ordering available at your fingertips.

#### STAFF
